Dear Customer,

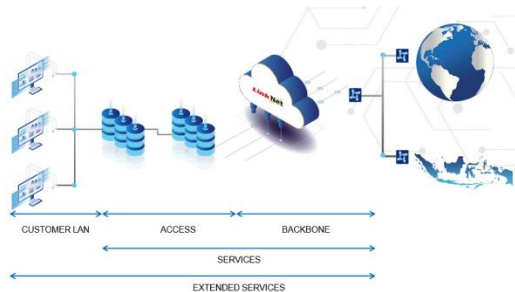

PT. Link Net Tbk. would like to offer our services and presentation needs in your company. Our experience as an ICT service provider in Indonesia recognizes customer needs. Dedicated high-speed Internet, HD TV channels, low telephone costs, high-tech devices, applications for education and other technologies that can benefit customers.

Our long journey of more than 21 years, experience serving more than 2000 companies in Indonesia. Responsible for providing excellent service in government, hospitality, energy resources, financial services, manufacturing, education. Certificate of "Platinum Customer Experience in Internet Service for Corporate Customers" 3 years in a row, proves that we are committed to implementing the corporate value of "**Customer as Priority**"

PT. Link Net Tbk is committed to providing the best, fastest, and unlimited internet. Our 2 submarine cable system with multiple paths from Singapore through Sumatra connected to Bali and integrated with the ultimate java backbone network that has reached more than 45 cities in Indonesia. We believe that the resources we have can provide service satisfaction to customers.

PT. Link Net Main Services:

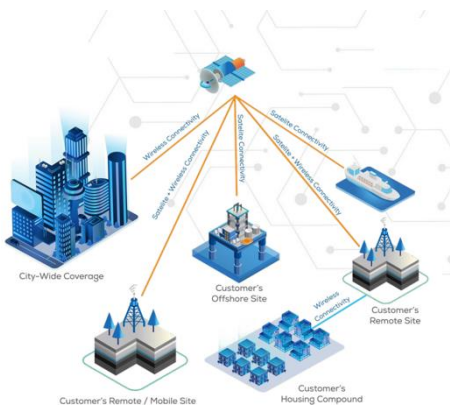

1. HDIPA (High Dedicated Internet Protocol Access)

Dedicated Internet Service Guaranteed High speed 1:1 ratio and uninterrupted internet connectivity, Scalable up to 10 Gbps and bandwidth transparency.

Reliability enhances and strengthens every aspect of the business, and provides high-quality internet access to process business transactions, implement mobility, and handle sensitive data

2. VSAT (Very Small Aperture Terminal)

Specific high density areas or providing global coverage, our VSAT services are especially useful for optimizing access to, from and within remote areas located in limited or non-existent terrestrial connectivity.

Specification:

- 4.5m, 7m & 9.3m C-Band Hub antenna
- 4.5m & 7.2m Ku-Band Hub antenna
- Redundant HPA
- Redundant HUB elements
- Integrated NMS
- Interconnectivity to Cyber Building Jakarta
- VSAT IP and VSAT SCPC available throughout Indonesia
- Experienced resources in Satellite Communications

3. Channel TV

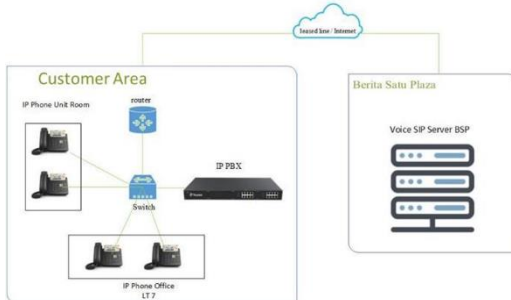

First Media as a product of PT. Link Net Tbk, is the best Broadband TV Channel provider in Indonesia.

Winning many awards proves we provide the best service with Premium HD displays adapting to environments with high noise and interference levels, producing a very strong signal.

Cooperate with the world's leading broadband channel providers such as NHK, HBO, VIU, Cinemax, FOX, etc. There are 80 digital channels and 57 analog channels that can match customer demands.

4. Telephone Cost Reduction (Voice Solution)

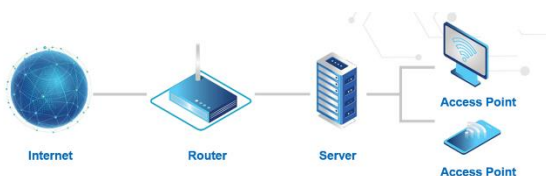

Using a dedicated internet network or leased line with Codec G729/G711 connected to a PT. Link Net server in Jakarta.

Voice quality very clear better than using a mobile phone or BTS connection.

Can reduce telephone usage costs up to 60% compared to conventional tariffs, using existing telephone numbers, PSTN, or GSM.

Suitable for companies that have telephone activities such as call centers, telemarketing, collections, and companies that need telephone cost efficiency.

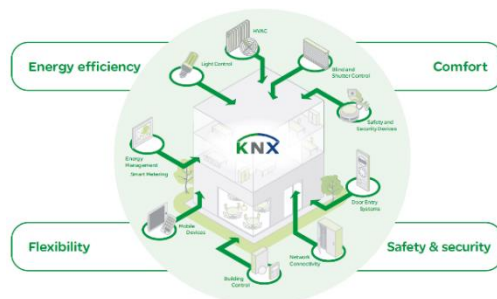

5. Equipment & Manage Service

Providing the latest, high-quality, guaranteed technology equipment that consumers need at affordable prices.

Providing ICT equipment installation services for maintenance to the end point at customer locations such as PC, CCTV, access points, PABX, desk phones, collocation data centers, etc.

6. Building Automation System (BAS)

BAS is an intelligent system of both hardware and software, connecting heating, venting and air conditioning system (HVAC), lighting, security, and other systems to communicate on a single platform. This way the automation system is delivering you crucial information on the operational performance of a building as well as enhancing the safety and comfort of the Occupants.
